

IHS is your ONE Stop Shop

IHS is your one stop shop for over 370 SDOs including: AIA, ANSI, ASME, API, ASTM, BSI, CEA, EIA, IEEE, ISO, IEC, NEMA, SAE, TIA, and more.

IHS provides time saving tools not only to help you increase productivity, but also help you stay on the cutting-edge of technology and ahead of the competition. IHS is the world's most comprehensive source of technical industry, government, and military standards. IHS has the information you need, when you need it, the way you need it! Accessing critical technical information has never been easier!

IHS has standards in a variety of formats to meet your needs:

- **Hardcopy:** A majority of the standards we provide are available as a printed copy
- **Electronic:** Desktop access to many standards is available in PDF (Portable Document Format). Electronic documents are delivered via an email containing a link to the document(s) ordered. The email also contains detailed downloading instructions
- **RAP:** IHS RAP (Remote Access Printing) delivers "hardcopy" documents immediately to your desktop via email, by sending a PDF file that prints at your location. So if you need hardcopy standards right now but don't want to wait or pay costly freight charges ask us about RAP
- **CD-ROM:** Some of the most popular individual standards and sets are available on CD-ROM
- **Internet Subscriptions and Custom collections:** Access information immediately via the Internet, intranet, or extranet

IHS has leading industry standards management tools, including:

- Custom Standards Report Service (CSRS) – Monthly notification of revision activity customized to your specific list of standards
- Standing Order Service – Automatically receive the latest revision of any standard or specification you need
- Engineering Library Update Service – Sign up to receive a bi-monthly list of the latest ANSI approved standards and specifications available at a discounted price
- Historical Standards – Largest collection in the industry
- Full Research Center – Step away from the computer and let our team of researchers locate and procure the hard-to-find standard for you
- Comprehensive, fully searchable web store: global.ihs.com

IHS is your ONE Source for Historical Standards

IHS is the industry's most comprehensive source of historical standards, specifications, drawings, handbooks, and related technical documents.

Do you need a standard or specification that is no longer active, is cancelled or superseded? Do you know where to obtain it? In order to procure these documents from an agency such as the US National Archives can often be frustrating and time consuming. Typically you may speak with several individuals and then wait 4 - 12 weeks for delivery.

The IHS solution includes:

- Extensive collection of historical Government & Military standards and specifications
- Industry standards dating from 1920's – present
- Specializing in Industry Standards from 1950's – present
- Historical ASME BPVC from 1920's - present
- Highly skilled staff of research analysts
- Multiple delivery options to meet your tightest deadlines

IHS is the simplest and fastest means to obtain historical, cancelled and superseded standards and specifications.

IHS also offers standards in a simple, easy to use online subscription. If you answer “yes” to any of the questions below, contact us to learn more about an IHS Standards Expert™ subscription.

- Are you struggling to keep your standards library current?
- Does your company purchase more than \$3,000 in standards per year?
- Do you need automatic updates?
- Do you have multiple users accessing the same standards?
