

IHS Engineering Library Update

ANSI approved standards and specifications from over 370 Worldwide standard development organizations

The Source
for Critical Information and Insight™

Having trouble keeping your engineering, corporate or university library up-to-date? IHS has the tools to keep your library current with the latest standards, specifications, and codes available.

The IHS Engineering Library Update provides you with a listing of the most relevant ANSI approved standards and specifications from over 370 worldwide standard development organizations (SDOs).

The update service includes:

- Email notification highlighting new or updated ANSI approved standards and specifications
 - 10% discount on the standards you purchase from your email notification
 - 15% discount if you purchase the entire emailed list
- Update your library based on projects, curriculum, and your budgetary needs.

Other Notification Services:

Custom Standards Report Service

- Create your own list and receive a monthly report that contains the most up-to-date status information on the standards that are important to you in maintaining your corporate or academic library and in meeting ISO Certification requirements.

Standing Order Service

- Automatic shipments of the latest revision of any standard you place on standing order
- This service takes time-consuming searching out of your hands. We send you the information you need as soon as it is available

For further information regarding the IHS Engineering Library Update or any other update service, please contact our sales department at: **303-397-7931**, **877-413-5187**, or email global@ihs.com.
